Overview of the CISSP Exam

The CISSP exam is a six-hour exam that consists of 100 multiple-choice questions. The questions are based on the eight domains of information security, which are:

1. Security and Risk Management
2. Asset Security
3. Security Architecture and Engineering
4. Communication and Network Security
5. Identity and Access Management

6. Security Assessment and Testing
7. Security Operations
8. Software Development Security

To pass the CISSP exam, you need to score a minimum of 700 out of 1000 points. The passing score is based on a scaled score, which means that it can vary from year to year.

Review of the Ten Domains of the CISSP Exam

The following is a brief review of the ten domains of the CISSP exam:
